About this object

A NEWLY BUILT UNIQUE ARCHITECTURE LOG FARMHOUSE FOR SALE NEAR BALTO EZERO IN THE ZARASI DISTRICT The farmstead is in a quiet place surrounded by forests, the Laukasas stream flows along the plot, which is 200 m from the territory of the plot. There is a naturally formed pond in the territory of the plot. The lake is just 160 m away, and the homestead also has a pontoon boat. Nearby are Liaudiškii mound, barrows and Balto Lake Park, which is decorated with various wooden sculptures. The homestead was designed by the architect Kęstutis Sabaliauskas, whose goal was to create a high-quality homestead reflecting Lithuanian folk architecture, evaluating the latest technologies. Therefore, only extremely high-quality and natural materials were used for this - reinforced concrete piles with gridwork, particularly thick hewn pine logs from Siberia, a roof covered with aspen chips, insulated rock wool. The homestead also has a well-equipped sauna. Sold w
